

**KGV RESEARCH  
THREE HALFPENCE DIE I  
NEW DISCOVERIES, PLATINGS & DESCRIPTIONS**

**By Bill Fiora  
July 2018**

**10L37 Plated**

A block of 4 stamps appeared on eBay recently, confirmed as 10L37/38/43/44 by prominent flaws on 10L43 (State 2).

The block shows 10L37 to have the BLC cut off at an angle.

I have located 2 additional copies of this stamp in single watermark and 1 copy on large multiple watermark.

Note: This flaw should not be confused with a similar flaw on UCV C83, as the shape of the flaws are slightly different. Both flaws are shown on the right for clarification.

A scan of the block is attached.

10L37

UCV C83
